EXPERIENCE

Suggestic Inc, Remote — *Lead Developer*
Apr 2015 — Present
Currently moving from a large Backbone/Marionette codebase to an ecosystem of smaller tools with Vue.js or React stacks.

Spons.nl, Remote — *Frontend Engineer*
Oct 2012 — Sep 2014
Online education startup in Amsterdam. The product featured an online course builder, a student facing app and tools to track progress.

Convert.com, Playa del Carmen — *UI engineer*
Feb 2012 — Sep 2012
I worked with Convert.com on their A/B and Multivariate testing platform. Design and implement A/B tests on client websites.

Booking.com, Amsterdam — *Design, Front-end*
Nov 2010 — Apr 2011
Developed A/B tests on Booking.com, a very high traffic website. Designed and implemented their mobile website used by millions on a wide variety of mobile devices.
